

GEAR SETS - Non Operational
Multi-layered construction
Alternative designs possible
Same gear pitch on all parts
Approximately 180dpi or 0.1 mod
Illustration approximately twice
Finished size

Set 1 - Smaller gears
 From approximately 3mm to 12mm diameter
 Total could be 24 spur gears

Set 2 - Larger gears
 From 19.5 to 24mm diameter
 One each size if using 6 layers per gear

Plus small gears from 8 to 3mm diameter
 Could make more then 12 spur gears

And two gear racks approximately 24mm long
